---

## SUMMARY

Systems/DevOps professional with 14 years of experience supporting Windows & Linux environments, hybrid infrastructure, and secure operations. Strong background in automation (PowerShell, Python, Bash), CI/CD, and platform hardening. Hands-on database administration experience across Microsoft SQL Server (MSSQL) and open-source platforms, with focus on backup/restore, maintenance, and performance.

## TECHNICAL SKILLS

<b>Microsoft &amp; Endpoint</b>	Microsoft 365 (Exchange, Teams, SharePoint, Entra), Intune (enrollment, compliance/configuration profiles, app deployment), Entra ID/Azure AD, Group Policy
<b>Systems &amp; Infrastructure</b>	Windows Server, Linux, AD DS, DNS/DHCP, patching, backups/restore, monitoring & alerting, scripting & task scheduling
<b>Database Administration</b>	Microsoft SQL Server (MSSQL), MySQL, PostgreSQL, backup/restore strategies, SQL Agent jobs, indexing & query tuning, roles/permissions, maintenance & monitoring
<b>DevOps &amp; Automation</b>	Jenkins, GitHub Actions, deployment automation, automation scripting (Python/PowerShell/Bash), release support, incident response
<b>Virtualization/Cloud</b>	VMware, Hyper-V, Azure, AWS
<b>Security &amp; Compliance</b>	vulnerability scanning & remediation, access controls, audit readiness, HIPAA, PCI DSS

## EXPERIENCE

### Cameron Health — Systems Administrator

June 2023 – Present | Angola, IN

- Administer enterprise infrastructure (servers, storage, core services) to maintain availability, performance, and secure operations.
- Automate recurring administration and reporting with PowerShell/Python to improve consistency and reduce manual effort.
- Support Microsoft 365 services and collaboration tooling, apply access controls and operational standards.
- Partner with stakeholders on security best practices and support compliance documentation and remediation workflows.

## **iHire — DevOps Engineer II / DevOps Engineer I / Systems Administrator**

May 2021 – June 2023 | Angola, IN

- Designed and maintained CI/CD pipelines with Jenkins and GitHub Actions to standardize builds, tests, and deployments.
- Automated deployments and operational tasks using Python and PowerShell to improve reliability and reduce errors.
- Supported production operations and release activities, troubleshooting across application, OS, and database tiers.

## **Blue Networking Solutions — IT Consultant**

Jan 2012 – June 2023 | Angola, IN

- Delivered systems administration, deployments, and network configurations for small-to-mid sized organizations.
- Performed database administration tasks (MSSQL/MySQL/PostgreSQL) including backups/restores, permissions, SQL Agent jobs, and basic performance tuning.
- Created custom automation in Python and PowerShell for reporting, maintenance, and repeatable configuration tasks.

## **AT&T — IT Sales Executive / Manager**

Aug 2013 – May 2021 | Grand Rapids, MI / Angola, IN

- Led day-to-day operations and coached staff, delivered technical solutions aligned to customer needs.
- Recognized for leadership, customer experience, and consistent results.

## **Best Buy — Geek Squad Help Desk**

Oct 2012 – Aug 2013 | Fort Wayne, IN

- Provided hardware/software troubleshooting and repair guidance, resolved end-user issues efficiently.

## **EDUCATION**

- Champlain College — Coursework in Cyber Security
- Purdue University Fort Wayne — Coursework in Information Technology
- Angola High School — Honors Diploma

## **CERTIFICATIONS**

- AT&T Cybersecurity Gold Certification
- Google IT Support Certificate
